WORK EXPERIENCE

Indian Plastic Footwear And Clothing Pvt. Ltd. — MIS Executive / Data Analyst

Bahadurgarh | May 2026 – Present

- Leading the move from a **fully paper-based system to a custom ERP**, covering stock, orders, billing and dispatch, to give the company **real-time tracking** for the first time. Also act as ERP admin.
- Worked with the **ERP vendor's development team** on module design, turning shop-floor and office workflows into requirements and reporting bugs from testing.
- **Trained 23 employees across 4 departments** (Sales 10, Accounts 6, Warehouse 4, Inventory 3) to run daily work on the ERP.
- Monitor operations such as **QR code printing and labelling**, checking that the defined process flow is followed on the floor.
- Analysing **historical sales data** in **Excel** and **Power BI** to find the top-selling articles and where they sell, and studying the drivers behind their performance. Clean the data (name errors, duplicates) with **Python (Pandas)**.

Sir Ganga Ram Hospital (SGRH) — Data Analytics Intern (CKD Analytics)

New Delhi | Jan 2026 – Mar 2026

- Cleaned and structured clinical datasets using **Python (Pandas/NumPy)** (**195 patients, 1,297 records**); computed KPIs showing **Creatinine 7.48→1.55 mg/dL, Hemoglobin 9.07→12.82 g/dL**.
- Conducted correlation and trend analyses identifying risk factors (**Age, BMI, follow-up frequency**) impacting post-transplant recovery.
- Built interactive dashboard (Chart.js + Tailwind) with trend charts and acceptance/rejection outcomes for clinical monitoring.

Gudmed — Front-End Developer Intern

Gurgaon | May 2025 – July 2025

- Built a medical reminder web app with structured tracking for **100+ test users**.
- Improved the app's page structure and speed, reducing load time by **~30%**.
- Worked in a **4-member team** to add user engagement tracking, increasing feature use by **~20%**.

Main Flow Services and Technologies Pvt. Ltd — Front-End Developer Intern

Ghaziabad | May 2024 – July 2024

- Developed responsive web pages, improving user experience and load speed by **~20%**.
- Analyzed website performance metrics, contributing to **~15%** efficiency improvements.
- Delivered **3+ live project components** used in production.
