## PROFESSIONAL SUMMARY

Data Analytics-focused BCA graduate skilled in **Python, SQL, Excel, and Power BI**, with experience building dashboards, analytical reports, and structured datasets for decision-making. Strong foundation in **data cleaning, transformation, querying, and visualization** to uncover trends and deliver actionable insights. Combines technical development experience with analytical thinking to support business outcomes and operational efficiency.

## SKILLS

**Analytics & BI:** Python (Pandas, NumPy, Matplotlib) • SQL • Excel (Pivot Tables, Lookups) • Power BI (Dashboards, DAX basics) • Tableau (basic)

**Databases:** MySQL • SQLite

**Tools & Development:** Git/GitHub • HTML/CSS (basic) • JavaScript (basic) • React (basic)

**Core Strengths:** Data Cleaning • Exploratory Data Analysis (EDA) • Reporting • Problem Solving

## WORK EXPERIENCE

### Gudmed — Front-End Developer Intern

Gurgaon | May 2025 – July 2025

- Built a medical reminder web app using **React.js** enabling structured tracking and visualization of daily medication intake for **100+ test users**.
- Integrated **Firebase Realtime Database** for consistent data synchronization and improved reliability of user logs.
- Improved performance by optimizing UI rendering and component structure, reducing load time by **~30%** (measured using web performance tools).
- Worked with a 4-member team to implement engagement tracking and improve feature adoption by **~20%**.

### Main Flow Services and Technologies Pvt. Ltd — Front-End Developer Intern

Ghaziabad | May 2024 – July 2024

- Developed responsive web pages using **HTML, CSS, and JavaScript**, improving UX and load speed by **~20%**.
- Analyzed performance metrics using **Chrome DevTools** and **Lighthouse**, contributing to efficiency improvements by **~15%**.
- Collaborated with backend team to ensure clean integration of data into UI workflows and consistent delivery across modules.
- Strengthened problem-solving by delivering **3+ live project components** in production environments.

## EDUCATION

### Christ University — Bachelor of Computer Applications (BCA)

Delhi NCR | Apr 2023 – Present | GPA: 3.4/4.0

### St. Mary's School — Secondary Education

Mar 2023

## PROJECTS

### PhonePe Transactions Analysis Dashboard — Power BI

[Dashboard](#)

**Tech:** Power BI • Power Query • Data Modeling

- Built an interactive Power BI dashboard to track transaction KPIs such as **Total Amount (~3,474M)**, **Transactions (~300K)**, and **Success Rate (~96%)**.
- Analyzed service-wise performance (Insurance, Loans, Money Transfer, Recharge & Bills) and transfer-type patterns (UPI, QR, Mobile).
- Identified key failure reasons (Wrong PIN, Server error, Bank denied) to support reliability monitoring.

### CKD Analytics — Kidney Transplant Outcomes Dashboard

**Tech:** Python • Pandas • NumPy • EDA • Data Cleaning • Correlation Analysis • HTML • Tailwind • JS • Chart.js

- Cleaned and processed clinical datasets using **Python (Pandas/NumPy)** to prepare structured recovery-stage data for analysis (**195 patients, 1,297 records**, 7 time points).
- Computed key recovery KPIs showing strong improvement: **Creatinine 7.48 → 1.55 mg/dL (+79.3%)** and **Hemoglobin 9.07 → 12.82 g/dL (+41.3%)**.
- Performed **trend and outcome analysis** across recovery stages with acceptance monitoring (**137 accepted, 58 rejected**) for post-transplant evaluation.
- Conducted **correlation and risk-factor analysis** (Age, BMI, follow-up frequency, creatinine) to identify drivers of recovery and visualized insights through an interactive dashboard using **Chart.js**.

## CERTIFICATIONS

- SQL: Basic to Advanced Skills for Analysts & Engineers — Udemy (Oct 2025)
- Introduction to Python — Infosys Springboard (Aug 2024)
- Data Analytics Program — Top Varsity (Ongoing)
- Computer Network — Huawei Talent (Jan 2025)
- Web Development Internship — Main Flow Services (2024)

## LANGUAGES

• Hindi (Native) • English (Fluent) • French (Intermediate) • Japanese (Beginner)
